New MBS in Management Information Systems being developed at ITT Dublin

The Department of Marketing & Business Computing are in the process of developing an MBS in Management Information Systems. The course is open to all graduates whether they are from a science or business background. For more information on the course [click here](#).

They want to get feedback from you on the proposed course so they would hugely appreciate if you could fill out a very quick online survey by [clicking here](#).

Each Institute has increased the number of flexible learning courses it offers through the use of virtual learning and training staff in new technologies. Courses are being converted to flexible learning formats and 350 modules and courses are already available in engineering, science, business, marketing, technology, management and education.

For the full article [click here](#). Visit the Bluebrick website at www.bluebrick.ie.

Have you got an Architectural, Engineering or Construction related qualification?

The Construction IT Alliance (CITA), in partnership with Dublin Institute of Technology (DIT) are offering a Post Graduate Diploma in Construction Informatics (IT). The programme has been designed by the Construction IT Alliance in association with the University of Maribor in Slovenia.

For more information & to register online [click here](#) or contact Dr Alan Hore at ahore@cita.ie. The course will commence in February 2010 with interviews scheduled for October / November 2009. [Click here](#) for a PDF brochure.

Drinks on Us – still available for limited time

We still have some funds available for anyone who wants to get in touch about having 'Drinks On Us'. For more information on this, [click here](#) to find out what it's all about.

If you want to meet your mates at the Institute and have some drinks and nibbles on us then get in touch and let's make it happen.
